experience

NEW WORK SE - (Senior) Data Engineer may 2021 - present
Porto, Portugal

After some years in the company working primarily with Ruby and living/working in Hamburg, Germany I decided to embrace some change and since 2021 I switched roles and started working as a Data Engineer focused on Scala and in mid 2022 I relocated to Porto. I'm embedded in the Marketing Solutions Data Science team.

NEW WORK SE - (Senior) Software Engineer may 2018 - may 2021
Hamburg, Germany

Worked as a Backend developer using mainly Ruby On Rails, MySQL, RabbitMQ.

Gympass - Ruby on Rails Full Stack Developer feb. 2017 - apr. 2018
São Paulo, Brazil

Maintenance and improvement of the web application, including adding features such as a self checkin service adaptive Help Center for internal and external customers. Main technologies: Ruby on Rails, Ruby, JavaScript, MySQL, Git.

Quero Educação - Ruby on Rails Full Stack Developer jul. 2014 - jul. 2015
São José dos Campos, Brazil

Maintenance of system. Development and integration of third-part metrics solutions (Mixpanel, Kissmetrics).

Fiducia IT AG - Java Developer (Praktikum) may 2013 - nov. 2013
Karlsruhe, Germany

Part of a multicultural team formed by 5 people from different parts of the world. Responsible for developing a prototype of an innovative solution of integrating banking software with social media.

MARS Inc - Storage & Backup Intern feb. 2012 - apr. 2013
Guararema, Brazil

Responsible for monitoring databases health and metrics analysis. Developed a project of proactive backup monitoring. 3PAR disks provisioning.
